1. One foot = _____cm and one inch = _____cm. How many m is 4'11" with no rounding? _____
2. The 7 in 3,271 represents 70
What value does the 6 in 16,521 represent? _____
3. A boy buys 6 comics which cost 57p each. How much is the total cost? Give the answer in pounds and pence. _____

4. The graph shows the number of Red Admiral butterflies spotted by a class of children in a field each day of the week last summer. What is the difference between the number of butterflies seen on Thursday and on Monday? _____

5. Work out 80% of 50 _____
6. Write the number seven thousand and seventy in figures. _____
7. Zaid bought 6 cards which were all the same price. He was given 58p change from one pound. How much did each card cost? _____

8. One foot = _____cm and one inch = _____cm. How many m is 5'2" with no rounding? _____
9. Which of the following does not have rotational symmetry?
O I S H E _____
10. What fraction of 3 hours is 30 minutes? Give the answer in the simplest form. _____
11. What percentage of the letters are capitals?
a A A a a a a A A _____
12. 300 children go on a school trip to Blackpool. $\frac{1}{5}$ of them fall into the water. How many children is this? _____

13. $85 \times \frac{1}{5}$ _____

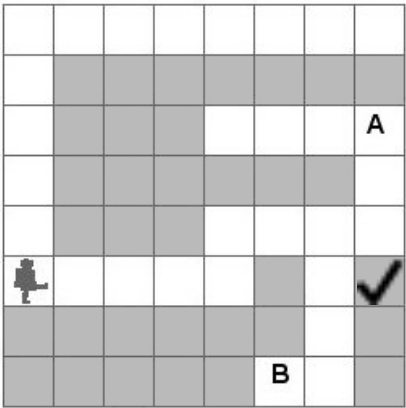

14. What is the figure 1 worth in the number 1532? (This is the same as saying what the digit represents.) _____

15. Below is a table showing the results of some marbles matches in a school competition. How many matches did the purple team not win?

	Won	Lost	Drawn
Red team	3	5	4
Blue team	7	5	3
Purple team	2	9	9

16. The numbers machine below takes a number, triples it and takes 4. What number has been put in?
-----> numbers machine -----> 38

17. Finish the directions for the car to get to B. Begin with: forward 4, left 90°. You may use 'F' for 'forward', 'L' for 'left' and 'R' for 'right'.

Ans=F4,L90, _____

18. Show 4 hours 35 min with a circle for each hour, and subtract 40 min, showing this on the diagram. What is the new time? _____

19. There are 36 pupils visiting a museum. 1/6 go to the top floor, 2/6 go to the middle floor, and the rest go to the ground floor. How many go to the ground floor? _____

20. There are 24 boys and 36 girls in a class. What fraction is boys? Give the answer as a fraction in the simplest form. _____

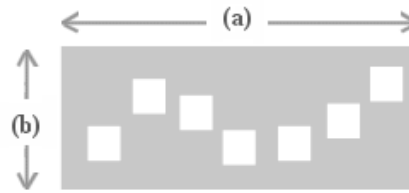

21. Fill in the missing number
 $5738 = 5000 + 700 + 30 + \underline{\hspace{1cm}}$ _____

22. Draw a circle, shade in the fraction $\frac{3}{5}$, and convert it to a decimal. What is the value of the decimal with no rounding? _____

23. Which is the number 5,762?
- a) five hundred and seventy thousand and sixty-two
 - b) fifty thousand seven hundred and sixty-two
 - c) five thousand seven hundred and sixty-two
 - d) five million seventy thousand and sixty-two
 - e) five hundred thousand seven hundred and sixty-two
 - f) fifty-seven thousand and sixty-two
 - g) fifty-seven thousand six hundred and two.

- three million, fifty-six thousand, seven hundred and seventy

- (The diagram is not to scale.)
